

# Mbah Chiemerie Ejike

## Full Stack Developer

Full stack developer with 4+ years of experience building responsive, scalable web applications using React, Next.js and Express. Skilled in crafting clean maintainable UI/APIs and collaborating with teams to deliver high-performance solutions.

### EXPERIENCE

#### **Arcstack, Abuja — Fullstack Developer**

June 2025 - Present

Architected and built client ecommerce and logistics applications, using React, Nodejs and Mongodb.

Integrated third-party features, improving user experience and increasing user engagement.

Implemented a code cleanup process, reducing errors and improving maintainability

#### **Clpper, New York — Backend Developer (Contract)**

November 2025 - Present

Designed and developed the backend for *Clpper*, an appointment-booking platform enabling customers to schedule sessions with barbers across multiple shops

Built product-purchase and catalog capabilities, allowing customers to browse and buy barber shop hair products and view curated shop image portfolios.

Integrated third-party features, stripe and sendgrid for payments and email functionalities.

#### **Attend Services, Nsukka — Senior Front-end Developer**

December 2023 - February 2025

Developed *Attend*, an event management and ticketing web application using React, optimizing performance and user experience.

Integrated Paystack, enabling secure and seamless online payments for event ticket sales.

Added new features and fixed bugs based on feedback from 20+ student organizers while managing 20+ events and selling 400+ tickets.

## PROJECTS

### GameHub — Game discovery web application

GameHub is a comprehensive game discovery platform. Users can efficiently search for games based on multiple criteria, including platform, genre, release date, popularity, and average rating. Leveraging the extensive RAWG API database, GameHub provides access to over 350,000 games, ensuring a vast and diverse library for users to explore.

Tools: React, React Query, Zustand, React Router & Chakra UI
