Mbah Chiemerie Ejike

Full Stack Developer

Full stack developer with 4+ years of experience building responsive, scalable web applications using React, Next.js and Express. Skilled in crafting clean maintainable UI/APIs and collaborating with teams to deliver high-performance solutions.

EXPERIENCE

Arcstack, Abuja — *Fullstack Developer*

June 2025 - Present

Architected and built client ecommerce and logistics applications, using React, Nodejs and Mongodb.

Integrated third-party features, improving user experience and increasing user engagement.

Implemented a code cleanup process, reducing errors and improving maintainability

Attend Services, Nsukka — *Senior Front-end Developer*

December 2023 - February 2025

Developed Attend, an event management and ticketing web application using React, optimizing performance and user experience.

Integrated Paystack, enabling secure and seamless online payments for event ticket sales.

Added new features and fixed bugs based on feedback from 20+ student organizers while managing 20+ events and selling 400+ tickets.

Blaitware, Abuja — *Front-end Developer*

February 2021 - August 2021

Developed a Design System using React.js, TailwindCSS, and SASS, improving UI consistency and development efficiency.

Conducted code reviews, enforcing best practices and improving code quality and maintainability.

Collaborated with Product Managers, enhancing feature delivery speed and customer satisfaction.

Digital Dreams Limited, Enugu — *Front-end Intern*

March 2020 - August 2020

Completed a front-end development internship, gaining hands-on experience with HTML, CSS, and JavaScript.

Redux Toolkit
React Query

CI/CD Pipeline

GitHub
Vercel

Developed a responsive bookstore landing page, showcasing skills in UI design and web development.

Enhanced coding proficiency, learning best practices for building and styling interactive web applications.

EDUCATION

University of Nigeria Nsukka, Enugu

October 2019 - December 2024

Bachelor of Science in Computer Science | CGPA: 4.54

PROJECTS

GameHub — *Game discovery web application*

GameHub is a comprehensive game discovery platform. Users can efficiently search for games based on multiple criteria, including platform, genre, release date, popularity, and average rating. Leveraging the extensive RAWG API database, GameHub provides access to over 350,000 games, ensuring a vast and diverse library for users to explore.

Tools: **React**, **React Query**, **Zustand**, **React Router** & **Chakra UI**

Cordial Chat — *Gemini 1.5 chat web application*

Cordial Chat is a simple web application that enables users to engage in conversations with Google's Gemini 1.5 model. The app supports up to 15 requests per minute (RPM), 1,000,000 tokens per minute (TPM), and 1,500 requests per day (RPD). It also features multi-threaded chat functionality, storing conversations locally in the browser's storage for a seamless, persistent experience.

Tools: **React**, **Gemini SDK**, **Context**, **React Router** & **Chakra UI**
